

Allows Large-Scale Retail Trade to cash in lunch vouchers at the register

Argentea developed AMoneyBPE focusing on the needs of large-Scale Retail Trade, in order to allow its customers to pay via lunch vouchers or electronic tickets, directly at cash registers. The integration with AMoneyPAY allows payment by inserting the lunch vouchers' Chip Card into the cash-register's POS, without need of using different devices for different carriers.

MAIN FEATURES:

- ▶ Allows **payments via lunch** vouchers and electronic tickets (chip card), directly at the retailers' cash-registers
- ▶ Proprietary solution of Argentea, directly **integrated with all carriers** (Edenred, DAY, Sodexo, CIR Blu Ticket, Pellegrini, EP/GM Lunch and Qui Ticket)
- ▶ **Does not need any mediation** with the carriers
- ▶ Integrates seamlessly with the **AMoneyPAY** system
- ▶ Utilizes the **ever-present POS** to cash in lunch vouchers
- ▶ **Offers a dedicated web portal** to monitor the balance of the operations

ARGENTEA IS CERTIFIED

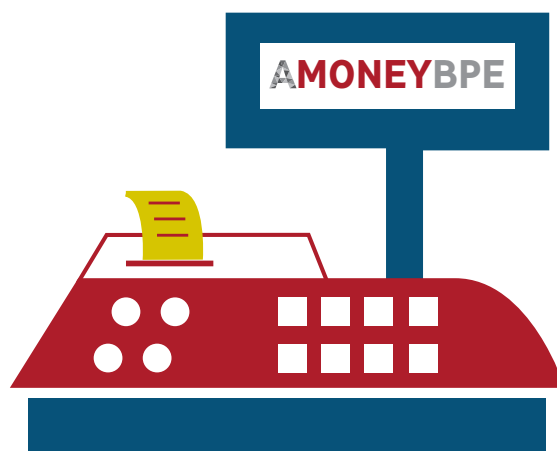

UNI EN ISO 9001:2009 (società DNV)
Coban 405010 Microcircuito - Protocollo CB2

HOW AMONEYBPE WORKS

The customer asks for a lunch voucher or electronic tickets payment.

The cash-register software then activates the AMoneyBPE system on the POS.

The POS prompts the user to insert the card.

The customer decides the amount and how many lunch vouchers to use.

The register confirms the payment's completion.

ARGENTEA
simple payments, easier life
